I knew Marg from Sears. She worked in the cash office and I was in the credit office. She was a great person to work with. Friendly and great sense of humour. She knew I loved

cats so when their cat had kittens she was determined I take one. I was getting married in March 1970 so she agreed to keep her until we were moved in. I remember it was a cute tortoise shell kitten her kids named Rascal. Neil even smuggled her into the store and I fell in love with her. We had her for thirteen years.
My condolences to all of the family.

My sincere and deepest condolences to the family. I was a caregiver who helped Margaret in the mornings. she often had control of my phone so she she could hear this song as often as she could.

<https://www.youtube.com/watch?v=4Wb2nZR6qbE> she told me the story of her old boss who would play it to her and she would laugh and laugh, as she did when we listened together.
