We are sadden by the passing of Kris, and wish to express our condolences to you and the family.

I had the good fortune of working with Kris at STI, later SIAST, etc. He ran a well-balanced program, Electrical Engineering Technology, achieving high student skills and high industry standards. We, at the school, were rightly proud of his accomplishments. You and the family can feel rightly proud of him, as I'm sure you do.

Our family donates to Heart and Stroke Foundation, and we'll donate in memorial of Kris.

My family and I were deeply saddened to learn of Kris' departure. Kris' family and my family shared a wonderful bond over the years and even though we were far apart physically over the past few years, he and his family were always in our thoughts.

I had the good fortune of working with Kris at STI and SIAST. He always gave 100% to his profession and he and I would always discuss professional matters. We would always seek ways to make our institution a better place for our students.

We will miss you, Kris. I wish Sandra, Shaun (and family) and Jason the strength to carry on in Kris' absence.

RIP in Peace, our good friend.

Our heartfelt condolences to the family. We are proud to have known you for many years during which you have shown to be of great character. You were a no nonsense, serious and straight forward person who tutored many at school and in your circle.

You showed you love in so many ways. At home you took you time in training and discipline, and your love for family was evident in your guidance. Your immediate family, your wife Sandra and your sons Shaun and Jason will miss

Lyou greatly. Eric, Emily and Sandy will always remember the loving grand dad that you were. Fly with the angels now my dear brother, your work here is over..♥️

I knew Kris when he was in Edmonton, about 46 years ago. Kris and Sandy became very good friends of my family and I.

on, in the absence of Kris.

Fondly remembered by Dave T. and family. RIP.
